

DRIVE TO GATHER.

LEARNING, EXPERIENCING AND BONDING BY DRIVING TOGETHER IS THE REASON BEHIND THE SUCCESS OF THE SAFRA MOTOR SPORTS CLUB.

■ Beginning as a small car club in 2008, the SAFRA Motor Sports Club (SMSC) now comprises a large community of friends who enjoy fun motoring activities. On top of the thrill factor, SMSC also offers affordable motoring activities that are accessible to all.

The club actively promotes safe and responsible motoring, with the likes of the SMSC Defensive Car Control Course (\$199 for members).

Covering both defensive and advanced driving techniques, the course remains one of the most comprehensive, flexible and affordable defensive driving courses in Singapore.

In a short span of time, SMSC has also marked several milestones.

CPT (NS) Darion Lim, Chairman of the SMSC, shares: "Since our launch on 5 April 2008, we have achieved significant growth in membership. We're now on par with many other interest groups in SAFRA, despite being the youngest.

"Within a year of its launch, SMSC

also achieved massive cost savings that were passed on to its members through various activities, like the affordable Defensive Driving Course."

The club has also worked with notable partners to provide a variety of events such as Asia Paranormal Investigators for the Spooky Night Drive, Auto-i for the SAFRA Motor Sports Carnival, Derrol Stepenny Promotions for the Charity Car Wash by Miss Singapore Universe Finalists, to name a few.

Members can look forward to a line-up of exciting new activities too. There'll be workshops and visits to automotive and motoring facilities, one-day driving tours, go-karting sessions and self-drive holidays to Singapore and Malaysia, defensive driving courses and dirt biking sessions in neighbouring Malaysia.

So whether you are a SAFRA or HomeTeamNS member, a single woman or student, come join SMSC. It's a great way to bond and have fun with other motoring enthusiasts! ■

UPCOMING ACTIVITIES

DEFENSIVE CAR CONTROL COURSE

12 JUN 2010

This intensive practical course will impart essential driving skills to keep you, your passengers and car safe during emergency situations. Course outline: Seating Position, Steering, Braking, Skid Recovery, Collision Avoidance, Handling Adverse Driving Conditions and Emergency Evasive Driving (Handbrake Turn and Reverse Flick).

MOUNT OPHIR ROAD TRIP ADVENTURE

18 JUL 2010

A one-day fully guided self-drive road trip along the North-South Highway, "B", Plantation and "Ala Initial D" Mountainous Roads to reach "Salem High Country". You can either opt to have a picnic there and enjoy the cool breeze or do a one-hour trek up to the summit of Mount Ophir at 4,186 feet above sea level.

For more information, contact Daniel at cdaniel@safra.sg or call 6377-3674 during office hours.
